INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
The Town of Wakita, Oklahoma

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Wakita, Oklahoma, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town of Wakita, Oklahoma, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the schedule of funding progress and budgetary comparison information on pages 21 and 22 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 16, 2014, on our consideration of the internal control over financial reporting of the Town of Wakita and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Wakita's internal control over financial reporting and compliance.

1. Summary of Significant Accounting Policies

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

1A. Financial Reporting Entity

The Town of Wakita (Town) operates under the Statutory Town Board of Trustees form of government and provides the following major services: public safety, streets, public improvements, planning and zoning, and general administration. In conformity with GASB-14, the financial statements of the following component unit have been included in the financial reporting entity as a blended component unit because its operating and financial relationship is significant to the Town.

1B. Blended Component Units

The Wakita Utilities Authority (WUA), an entity legally separate from the Town, is governed by the same board of trustees that governs the Town. For financial reporting purposes, the WUA is reported as if it were part of the Town's operations because its purpose is to finance and provide water, sewer, trash, and gas services to the citizens of the Town. The WUA does not present separate financial statements.

The Wakita Public Works Authority (PWA), an entity legally separate from the Town, is governed by the same board of trustees that governs the Town. For financial reporting purposes, the PWA is reported as if it were part of the Town's operations because its purpose was to finance construction of a community health center for the citizens of the Town. Since its purpose has been fulfilled, it is currently inactive. However, the building is currently leased to the James Dennis Medical Foundation (Community Health Center) in a contract that expires June 30, 2015.

1C. Basic Financial Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Town's police, fire, streets and general administration are classified as governmental activities. The Town's water, sewer, trash, and gas services are classified as business-type activities.

1D. Government-wide Financial Statements

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity. The statements distinguish between governmental and business-type activities. Governmental activities are financed by

taxes, intergovernmental revenues, grants, and other miscellaneous revenues. Business-type activities are financed by charges for services.

1E. Fund Financial Statements

The financial transactions of the Town are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements. The following fund types are used by the Town:

Governmental Funds

The measurement focus of governmental funds in the fund statements is current financial resources. Generally, only current financial assets and liabilities are included on their balance sheets and only sources and uses of available spendable resources are presented on their operating statements. Fund balance is used as their measure of available spendable resources at the end of the period. The Town uses one governmental fund, the general fund.

Proprietary Funds

The measurement focus of proprietary funds is economic resources, the objectives of which involve the determination of operating income, changes in net assets, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The Town uses only one proprietary fund, an enterprise fund. Enterprise funds are used to account for operations for which a fee is charged to external users for goods or services and the activity is financed with debt that is solely secured by a pledge of the net revenues; has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges; or establishes fees and charges based on a pricing policy designed to recover similar costs.

1F. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual Basis

Both governmental and business-type activities in the government-wide financial statements and proprietary fund financial statements are presented using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual Basis

The governmental funds financial statements are presented using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual (both measurable and available). Available means collectible within the current period or within 30 days after year end. Expenditures are generally recognized when the related liability is incurred.

1G. Cash and Cash Equivalents

The Town has defined cash and cash equivalents to be cash on hand, demand deposits, cash with fiscal agents, and short-term investments with original maturities of three months or less from the date of acquisition.

1H. Deposits and Investments

The governing body has not formally adopted deposit and investment policies that limit the government's allowable deposits or investments and address the specific types of risk to which the government is exposed. However, it is the policy of the governing body to require deposits in excess of FDIC limits to be collateralized as required by Oklahoma Statutes.

Investments are accounted for in accordance with GASB-31, Accounting and Financial Reporting for Certain Investments, which states that investments held at year end with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost.

11. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. The allowances for uncollectible accounts are based on historical trends and periodic aging.

1J. Interfund Activity

Interfund activity is reported either as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other Interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

1K. Capital Assets

Capital assets purchased or acquired with an original cost of \$2,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings 30 years
Utility systems 30 to 40 years
Equipment 5 to 20 years

GASB-34 required the Town to report and depreciate new infrastructure assets effective with its adoption in 2004. Infrastructure assets include roads, sidewalks, bridges, traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the Town. Neither their historical cost nor related depreciation has historically been reported in the financial statements. Retroactive reporting is not required.

1L. Compensated Absences

Town employees are entitled to certain compensated absences based on their length of employment. Compensated absences do not vest or accumulate and are expensed as paid.

1M. Revenues and Expenditures

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, and then unrestricted resources as needed. When fund balances in governmental funds that are committed or assigned are available, it is the Town's policy to use the committed or assigned resources first. Program revenues in the government-wide statements include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues. In proprietary funds, operating revenues and expenses result from providing the goods or services that are the funds principal ongoing operations. Revenues and expenses not meeting this definition are nonoperating revenues and expenses. Subsidies and grants to proprietary funds, which finance either capital or current operations, are reported as nonoperating revenue based on GASB-33. In applying GASB-33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

1N. Memo Only Totals

The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a

presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the organization's financial statements for the year ended June 30, 2013, from which the summarized information was derived.

2. Deposits and Investments

The Town has deposits of \$112,832 in excess of insured limits that are collateralized by securities held by the pledging financial institution's trust department or agent but not in the Town's name.

The State of Oklahoma allows municipalities to invest in the following: direct obligations of the U.S. Government, its agencies or instrumentalities; collateralized or insured certificates of deposit; insured savings accounts or savings certificates; and county, municipal or school Town direct debt.

3. Restricted Cash

Grant County sales taxes restricted for the Wakita fire department are recorded as restricted cash in the general fund. Although county funds, the Town records them on its books for purposes of oversight and control since the expenditure of these funds is material to the financial statements of the general fund. The balance at June 30 is \$780,721. Shared tax revenues of \$223,994 and expenditures of \$15,539 are included in these financial statements.

Workers compensation reserves of \$8,492 are on deposit at the Oklahoma Municipal Insurance Group (OMAG).

Debt service reserves are required by the Rural Development loan agreement. A debt service reserve of \$16,788 has been fully funded. A short-lived asset reserve is funded with monthly deposits of \$317. At year end, the balance of these reserve accounts is \$27,871, the required amount.

4. Capital Assets

Depreciation expense was charged to functions as follows:

Governmental activities		Business-type activities	
General government	35,939	Administration	333
Police department	3,399	Sewer	31,887
Fire department	17,413	Water	28,718
Street department	5,475	Gas	1,554
Total governmental depreciation	62,226	Total business-type depreciation	62,492

Capital asset activity for the year just ended is summarized as follows:

Long-term debt activity for the year ended June 30, 2014, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due in One Year
Governmental activities					
Backhoe lease-purchase	15,804	0	(1,137)	14,667	1,202
Business-type activities					
Water system note payable	359,900	0	(5,168)	354,732	5,338
Water tower contract	0	49,170	(9,834)	39,336	9,834
Total business-type activities	359,900	49,170	(15,002)	394,068	15,172

February 10, 2009, the Town entered into a \$20,200 15 year lease-purchase agreement for a backhoe. The lease carries a fixed annual interest rate of 5.766% and matures February 10, 2024. The Town is obligated to pay only such rental payments as are appropriated for that purpose annually. If the Town fails to budget funds for the lease, it will be deemed terminated at the end of the term last budgeted. The Town has the option to take title to the backhoe upon fulfillment of the lease.

July 22, 2011, the WUA issued a \$375,000 note for water system improvements. The note carries a fixed annual interest rate of 3.25% and matures July 22, 2051. The note is secured by all water revenues and a mortgage on the water system. Debt service reserves required by the note are recorded as restricted cash (see Note 3).

February 5, 2014, the WUA entered into a contract for emergency water tower repairs with their water tower maintenance contractor (See note 8). The repairs are being financed by the contractor over 5 years for equal annual payments of \$9,834. Should the WUA cancel the long-term maintenance contract, the full amount of the repairs will be due within 30 days.

A summary of debt service requirements to maturity by year is as follows:

	Gover	nmental act	ivities	Business-type activities			
June 30:	Principal	Interest	Total	Principal	Interest	Total	
2015	1,202	794	1,996	15,172	11,450	26,622

6. <u>Defined Benefit Pension Plans</u>

Volunteer Firefighters

Plan Description. The Town contributes to the Oklahoma Firefighters Pension and Retirement System (the System), a cost-sharing multiple-employer defined benefit pension plan administered by a 13-member board which acts as fiduciary for investment of funds and the application of plan interpretations. The System provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The System is a component unit of the State of Oklahoma and is authorized under Title 11, Oklahoma Statutes 1981, sections 48-101 et. seq. The System issues a publicly available financial report that includes financial statements and required supplementary information for the plan and may be obtained from their offices at 4545 N. Lincoln Blvd., Suite 265, Oklahoma City, OK 73105, or by calling 1-800-525-7461.

<u>Funding Policy</u>. Volunteer firefighters are not required to contribute, but the Town is required to contribute \$60 per volunteer per year. The contribution requirements of the System are an established rate determined by Oklahoma Statute and are not based on actuarial calculations. The Town's contribution to the System for the years ended June 30, 2014, 2013 and 2012 was \$1,020, \$1,200 and \$840 respectively equal to the required contribution for each year.

Town Employees

<u>Plan Description</u>. The Town's defined benefit pension plan, the Town of Wakita Plan and Trust (WPT), provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. WPT is affiliated with the Oklahoma Municipal Retirement Fund (OMRF), an agent multiple-employer type plan administered by Bank One in Oklahoma City, OK. Title 11, Oklahoma Statutes 1981, sections 48-101 et. seq. assigns the authority to establish and amend the benefit provisions of the plans that participate in OMRF to the respective employer entities; for WPT, that authority rests with the Town of Wakita. The Oklahoma Municipal Retirement Fund issues a publicly available financial report that includes financial statements and required supplementary information for the plan and may be obtained from their offices at 100 North Broadway, Oklahoma City, OK 73102, or by calling 1-888-394-6673.

<u>Funding Policy</u>. OMRF members are required to contribute 2.25% of their annual covered salary. The Town is required to contribute at an actuarially determined rate which is currently 7.48% of annual covered payroll. However, the Town is currently contributing 8.16% in order to prefund a future benefit increase. The contribution requirements of plan members and the Town are established and may be amended by the OMRF Board of Trustees.

Annual Pension Cost and Net Pension Obligation. For the year ended June 30, 2014, the Town's annual pension cost was \$5,925. Actual contributions of \$6,464 exceeded the required contributions. The required contribution was determined as part of the January 1, 2013 actuarial valuation using the entry age normal cost method which is computed as the level percent of pay which, if paid from the time an employee becomes a participant until assumed retirement, would accumulate funds sufficient to pay all plan benefits. The actuarial assumptions include (a) 7.5% investment rate of return (net of administrative expenses), (b) projected salary increases that vary by year based on the age of the employee, and (c) 3% per year cost-of-living adjustments. The actuarial value of WPT assets was determined using a 7.5% yield on the actuarial value at the beginning of the period, increased or decreased by a cumulative adjustment using a range of 80% to 120% of the current market value of the fund.

Fis	scal	Annual	Percentage	Net
Ye	ear	Pension	APC	Pension
End	ding	Cost	Contributed	Obligation
6/30	/2012	6,344	120%	0
6/30	/2013	6,334	124%	0
6/30	/2014	6,464	109%	0

Schedule of Funding Progress.

			Actuarial					UAAL
Actuarial	Value	Asset	Accrued		Unfunded			as a % of
Valuation	of	Valuation	Liability		AAL	Funded	Covered	Covered
Date	Assets	Basis	(AAL)	Type	(UAAL)	Ratio	Payroll	Payroll
1/1/2014	198,592	Actuarial	205,795	EAN	7,203	96.5%	85,380	8.4%

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

7. Workers' Compensation Plan

The Town participates in the Oklahoma Municipal Assurance Group (OMAG) Workers' Compensation Plan (the Plan). The Plan became effective October 1, 1984. The purpose of the Plan is to provide workers' compensation coverage through the State Insurance Fund to participating municipalities in the State of Oklahoma. In that capacity, the Plan is responsible for providing loss control services and certain fiscal activities including obtaining contract arrangements for the underwriting, excess insurance agreements, claims processing, and legal defense for any and all claims submitted to it during the Plan year. A plan year normally begins at 12:01 am July 1 in any year and ends at midnight June 30 of the following year. The Plan, or its designated agent, has a right to audit at all reasonable times such books and records of the participant as necessary to determine the monies owed for benefits provided to the municipality or its employees.

Plan participants have the responsibility to pay fees set by the Plan and to pay those fees from funds appropriated for that purpose according to the established payment schedule. In addition, participants are responsible for complying with all requirements of the Oklahoma Workers' Compensation Act. Participants have the right to the return of any Loss Funds set aside for claims which have not been paid out as benefits. Losses are limited to amounts set aside by the plan. The amount of Town funds on deposit with OMAG at year end was \$8,492.

8. <u>Long-term Maintenance and Repair Contract</u>

During 2000/2001, the Town entered into a long-term contract for water tower repairs and maintenance. An annual maintenance fee began in 2004 with cost of service adjustments calculated every three years, but in no case to exceed 5% annually. The contract is subject to cancellation with 90 days written notice prior to the anniversary date. The cost for 2014 was \$6,902.

9. Risk Management

The Town is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town manages

this risk through the purchase of commercial insurance policies. Risk management activities are accounted for by fund, and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered. No claims were made during 2014.

10. Budgets and Budgetary Accounting

The board of trustees adopts legally required annual operating budgets each year for each fund. The same generally accepted accounting principles basis of accounting used for financial reporting purposes is used for budgetary purposes. At the fund level, actual expenditures cannot exceed budgeted appropriations at the department level. Budgetary transfers between departments of the same fund are approved by the board when required. Supplemental appropriations, if needed, are approved by the board and submitted to the state auditor's office as required by state statutes. All appropriations lapse at the end of the fiscal year. Encumbrance accounting is not used. During the year, no budget amendments were approved.

11. <u>Interfund Transactions</u>

	General	Utility	
Transfers	Fund	Fund	Total
Sewer grant	(125,141)	125,141	0
_			
	General	Utility	
Internal Balances	Fund	Fund	Total
Payroll	(21)	21	0

12. <u>Subsequent Events</u>

Management performed an evaluation of the Town's activity through September 16, 2014, the date the audit was available to be issued, and has concluded that there are no significant subsequent events requiring disclosure through that date.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees
The Town of Wakita, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Wakita, Oklahoma, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town of Wakita's basic financial statements, and have issued our report thereon dated September 16, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Wakita's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Wakita's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Wakita's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control described below.

2014-1: Since the Town's clerk/treasurer is the only administrative employee, there is no segregation of duties between those maintaining the general ledger, the billing system, and performing reconciliations, and no compensating procedures to provide for oversight or review of those transactions. We recommend that the Town find ways for the trustees to provide oversight of the accounting functions, such as receiving unopened bank statements for review; reviewing utility billing and payment reports, and spending more time at town hall to become familiar with its operations.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements of the Town of Wakita are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Town of Wakita's Response to Findings

The Town of Wakita's response to the findings identified in our audit is described below. The Town of Wakita's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

2014-1 response: Since we are a small town with our clerk/treasurer as the only administrative and bookkeeping employee, we do not have a way of segregating duties. However, we will try to find ways to establish better oversight procedures.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
